Profile

Motivated Software Engineering graduated from damascus university, **top of my class**, specializing in Full Stack development. Passionate about leveraging web technologies to create innovative solutions. A collaborative team player with exceptional communication skills, dedicated to continuous learning and adapting to new challenges.

Education

B.Sc. Software Engineering

09/2019 – 09/2024

- Ranked at the top of my class (out of ~700 students) with an average of 89.1% in Damascus, Syria
- Recipient of the **Academic Excellence Award** for outstanding academic.
- Score: 83%.

Professional Experience

PROSOFT Creative Solutions, Frontend Developer

09/2024 – present

Damascus, Syria

- Built and scaled a multi-module government ERP (HR, Finance, Procurement, Inventory, and others) using React + TypeScript.
- Shipped responsive, accessible UIs aligned to business specs; standardized components and patterns for faster delivery.
- Integrated REST APIs with Redux Toolkit/RTK Query; added caching and predictable data flows.
- Reduced bundle size and re-renders via code-splitting, memoization, and strict typing.
- Raised reliability with Jest + React Testing Library on critical user flows.
- Built a Next.js professional networking platform (LinkedIn-style): SSR, routing, fast profile/feed pages.
- Delivered workflow automation: BPMN-like steps, task states, and dynamic, role-based forms.

Projects

Events Organization Platform, Frontend Developer

2024

- Developed a full-featured Event Management System (EMS) with **gamification elements** and **dynamic drag-and-drop forms**.
- Designed and implemented the frontend using React.js, ensuring an intuitive and responsive user experience.
- Enabled **event creation, ticket booking, attendee registration, event chatting, and ticketing** functionalities to streamline event management.
- Integrated **gamification features** such as **achievement badges and reward systems** to enhance user engagement and participation.
